January 24, 2002

Attorney General John Ashcroft  
US Department of Justice  
950 Pennsylvania Avenue, NW  
Washington, DC 20530-0001

Dear Mr. Ashcroft:

I am a supporter of the settlement that has been reached between Microsoft and the Department of Justice. Microsoft has agreed to terms that extended beyond the products and procedures that were at issue in the suit.

Microsoft has agreed to share data and source code that is internal to the Windows' operating system with their competitors.

Microsoft will also be making future versions of Windows to allow competitors and consumers to remove and add certain programs within their operating system. This was the original issue initiating the lawsuit, and now a settlement of that issue has been reached.

I hope that your office will now finalize this agreement and move on to other issues facing our country.

Sincerely,

Robert J. Allard, Jr.
